

# Final Project

Alison Schnoes

## Criminal Activity vs Non-Criminal Activity Involvement in Car Crashes

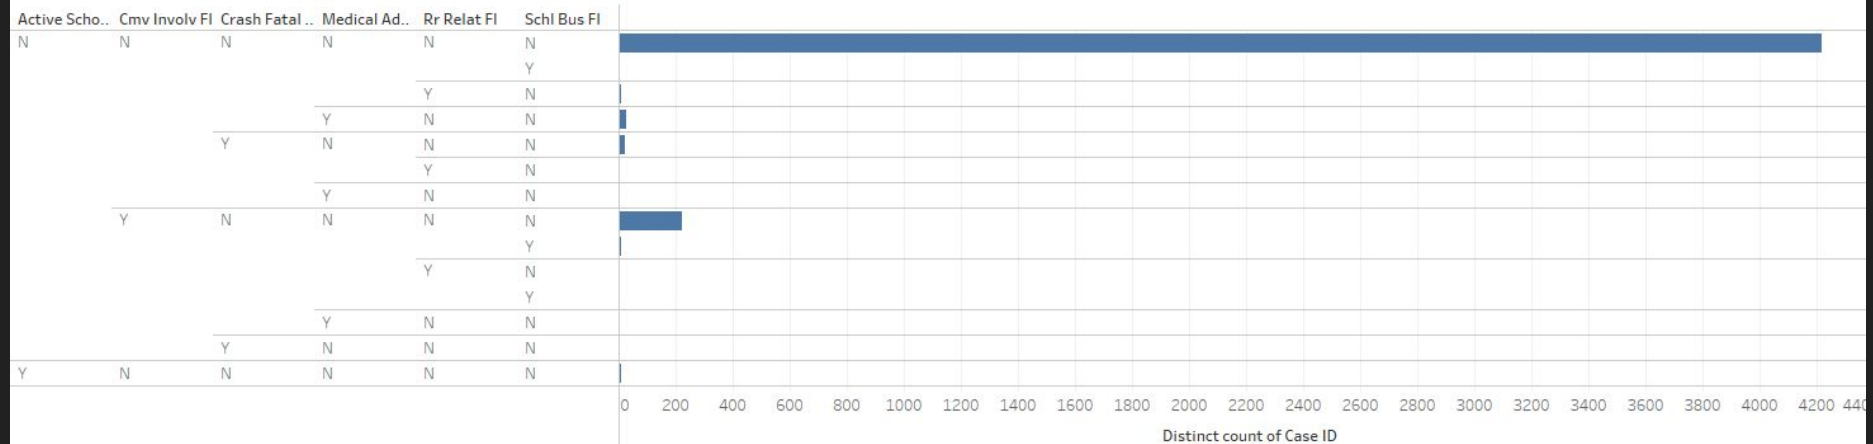

Criminal Activity vs Non-Criminal Activity Involvement in Car Crashes

There are not very many crashes involving criminal activity.

## Activity Involvement in Car Crashes

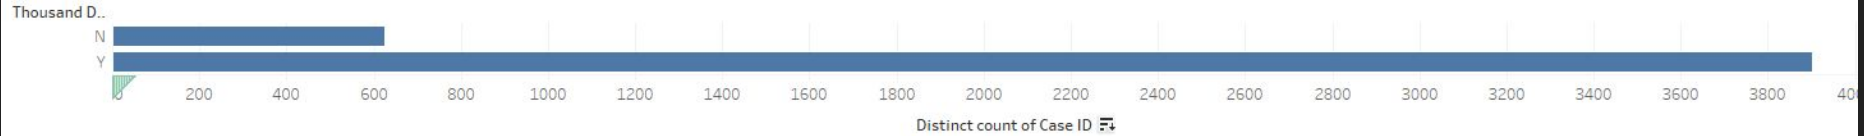

Activity Involvement in Car Crashes

Many car crashes aren't involved in active shooting, in school bus area, medical areas, crash fatal, and criminal involvement.

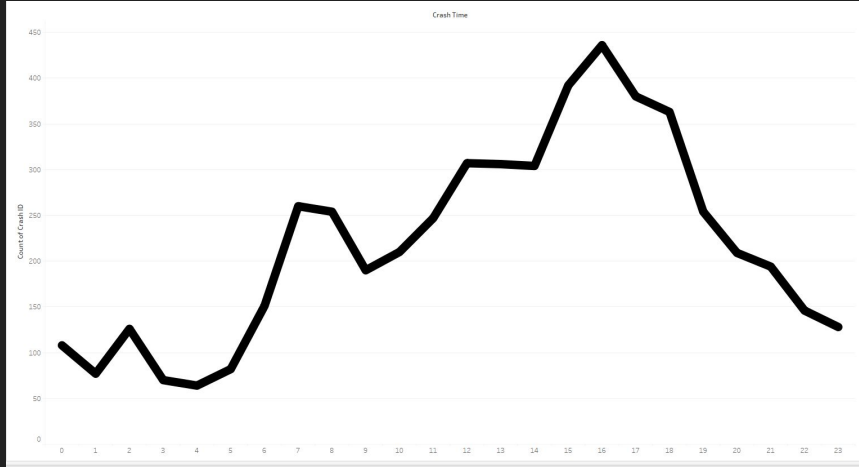

# Car Crashes are expensive

Thousand Damage in Car Crashes

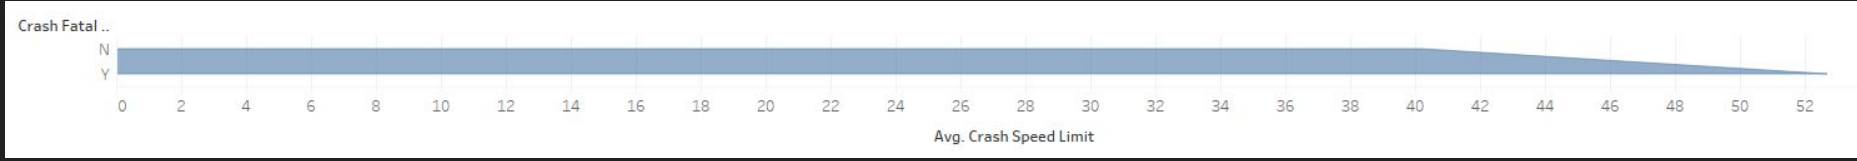

Only 13% of car crashes cost less than thousand dollars in damage

# Does time play a factor into car crashes? Yes

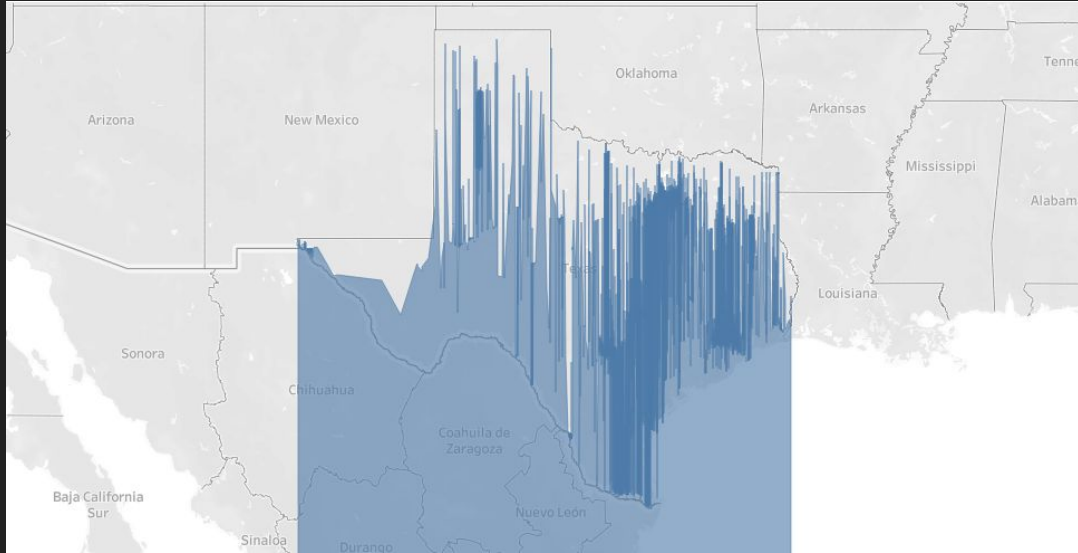

The peak time of car crashes is at 16:00 (4pm). The least time of car crashes is at 4am.

# Higher Speeds = Fatal Crashes? Avg yes

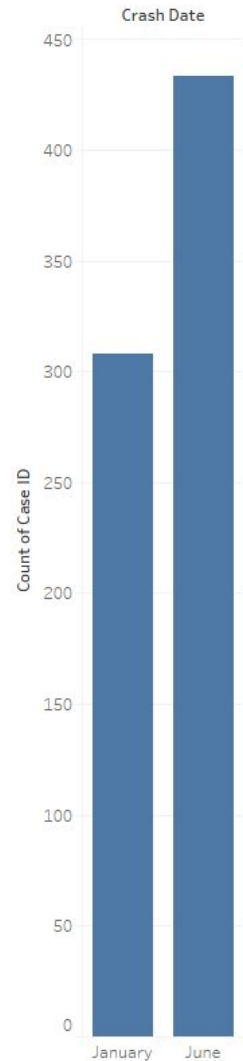

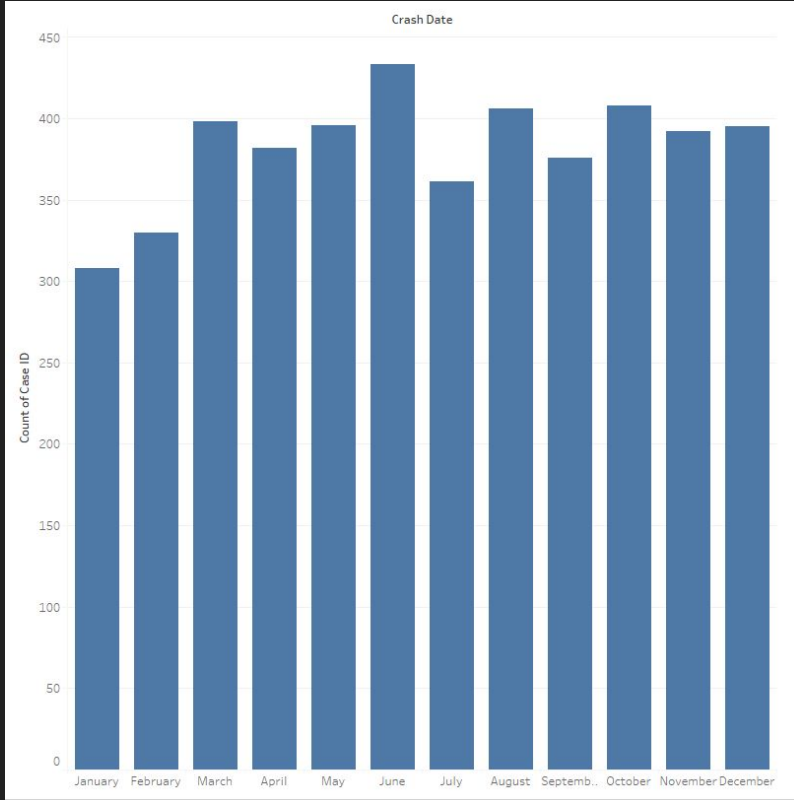

The faster you are driving the more fatal your crash is on average.

# Longitude vs Latitude

We are in the state of TX.

June has the highest crashes, January has the least

Friday's have the highest # of crashes while Sunday's have the least
